## Avionics

We are committed to offering the most current avionics products and services to enhance your flying experience. Our team of experts are up-to-date with the latest avionics systems and mandates and will choose the right solution for your needs. Along with solving complex problems and completing mandatory inspections, our technicians can provide installations and upgrades that improve in-flight connectivity and give the ultimate passenger experience.

## Avionics Capabilities

- In-house engineering support staff
- Complete avionics service and installation
- Cabin entertainment system installation
- NextGen upgrades (ADS-B Out)
- Wi-Fi installation
- Lighting upgrades

## Learjet Interior

Our interior modification and refurbishment facilities are located in Cleveland, Orlando, Mesa and Las Vegas. Our facilities are equipped with a custom design center staffed with professional designers who will help customize the interior of your dreams.

This Learjet 45 features red gum veneer, custom two-tone leather seat design with hand stitched decorative stitch, foot rest addition (stowed away in the forward bulkheads), custom funnel plated hardware, and custom galley. It was reconfigured from an eight passenger to a six passenger aircraft. The forward seats were moved up to make more space in the cabin.

## Interior Capabilities

- Custom design
- Soft goods refurbishment
- Cabinet manufacturing
- Re-veneer, matte and high gloss finish
- Custom thermal and acoustic installation packages
- Plating
- Window shades
- Interior detailing
